Dear Sir/Madam,

**Arrangements for Special Holidays for the 2021/22 School Year**

The Education Bureau announced on 28 February that the fifth wave of COVID-19 in Hong Kong is now extremely severe, with confirmed cases hitting new highs. Therefore, the original holiday in July and August will be brought forward to March and April accordingly. In response to the above announcement by the Education Bureau, our school has the following arrangements:

1. Special Holidays and Easter Holidays

Our school will start special holidays and Easter holidays from 7 March to 18 April 2022.

Secondary 1 to Secondary 5 classes will resume on April 19. The class schedule will be announced later on the school website and Grwth. Parents are advised to pay attention.

2. S6 Mock Exam and Graduation Ceremony

Mock exams originally scheduled for 2-11 March have been postponed to 8-15 March. The mock exam will be conducted online. In order to let students clearly understand the situation of the online exam, our school will set 7 March as a preparatory exam for the mock exam. For details, please refer to the "Guidelines for the S6 Online Mock Exam" distributed earlier. In addition, the S6 graduation ceremony will be postponed to July 2022.

3. Cancellation of S1 to S5 mid-term examinations

Due to the prolonged period of the epidemic, in order to allow students to have more time to study, the mid-term exam originally scheduled from 21 March to 25 March will be cancelled.

4. S4: Change of application deadline for NSS Applied Learning courses

The second briefing session of the Applied Learning courses originally scheduled for 9 March has been postponed, and the on-campus registration process will be arranged after the resumption of classes. Our school will postpone the deadline for application submission in response to the latest news from the Education Bureau. Parents can visit the Applied Learning courses on the Education Bureau's website (<http://www.edb.gov.hk/apl>) for the latest information. If the relevant arrangements are further adjusted due to the development of the epidemic, the school will make announcements through the school website and Grwth. Parents should pay attention.

5. "Special Holiday" Student Self-Learning Resource Bank

In order to encourage students to study independently, during the special holiday period, the school will upload learning materials through Google Cloud for students to review and consolidate knowledge. Students need to log in to the school's Google account to access the following links, or sketch a QR code to log in. The "Student Self-Learning Resource Bank" will be launched on 14 March.

7. Arrangements for other activities

In order to allow students to make good use of the special holiday, the following courses will continue to be conducted online during the holiday. Details will be announced later:

8. "Vaccine Pass" is implemented in schools

The government has announced that all schools in Hong Kong will be included in the listed premises of the "Vaccine Pass" starting from 24 February 2022, that is, starting from that day, except for students and those who can produce a government-approved electronic or paper "Certificate of Exemption". All those people entering the school area (12 years old or above), including parents, must have received at least one dose of the new crown vaccine, and when entering the school, scan "Safe Travel" and display the new crown vaccination record. Parents should pay attention to that the above "vaccine pass" arrangement does not apply to students. Please note that the specific implementation details of the vaccine pass will be based on the latest requirements announced by the government. Parents are advised to pay attention to the relevant announcements updated by the government from time to time.

Due to the severe epidemic situation, the school has to make various adjustments in a timely manner according to the situation. I am very grateful to all parents for their understanding, understanding and cooperation. The school will closely monitor the development of the epidemic and the latest guidelines from the government, the Education Bureau and the HKEAA. If the above arrangements are to be adjusted, the school will notify parents as soon as possible. Parents are kindly requested to pay attention to the school website and Grwth information.

Yours faithfully,

*So Ka Leung*
